WORK EXPERIENCE

Apr 2014 – Present   42gems

Ruby developer

In 42gems I found myself as a confident developer oriented on results and performance. Here I've build web-apps for very different clients like: teachers, btc traders, restaurants and broker agencies.

My responsibilities include the following:
- Building performance-oriented web-apps using Ruby on Rails.
- Participating in Scrum methodology steps.
- Contributing to the ongoing improvement of web development practices within the business
- Research, design and implement best practice solutions to new problems.
- Playing a key role in upholding company coding conventions.
- Tutoring more junior software engineers to ensure a consistent output.

Jun 2013 – Apr 2014   Prodigi

Ruby developer

Prodigi is the best Ukrainian advertising agency. I was invited there as a Ruby developer to help them with building websites and facebook/vkontakte apps for their clients.

My main responsibilities were:
- Building websites and facebook/vkontakte apps using Ruby on Rails and Sinatra frameworks.
- Full lifecycle development.
- Collecting internal and external feedbacks to drive new application enhancements.
- Deployment and support of developed products.

Oct 2012 – Jun 2013   Freelance

Ruby Intern

To get some experience in web development was helping more experienced developers by doing small tasks in their projects.

My main responsibilities were:
- Installation and administration of various third-party tools
- Small backend tasks.
- Gaining experience by reviewing the code of more experienced colleagues.
- Being responsible for the quality of features developed.

PROFESSIONAL SKILLS

- ★ Ruby (Frameworks: Ruby on Rails, Sinatra)
- ★ HTML (HAML, Slim)
- ★ Javascript (Coffeescript)
- ★ Bootstrap framework, Semantic UI
- ★ React.js
- ★ CSS
- ★ Linux
- ★ Git
- ★ Rspec, Cucumber
- ★ Languages: Ukrainian (native), Russian (native), English (upper-intemediate), French (beginner)

PERSONAL SKILLS

Confident and results-oriented developer with attention to details. Pride my work on being professional, of the highest quality and always delivered on time.

Good communication skills, both written and verbal.

"Problem-solver", had been a project team-leader on 2 successful project, consider myself a good team-player.

I am a patriot of the company I work for and my aim is to improve its performance on the market.

Consider myself a friendly person and always happy to share my skills with the team.

OTHER SKILLS

Driving license (category B)

INTERESTS

I'm playing the guitar with garage band that is created from my friends, that's my main hobby. Also love travelling, especially to the mountains.

I am a regional champion in chess. Also play football and do cycling.

Like learning something new. I use Coursera and FutureLearn websites to take online courses on very different subjects besides programming.

PERSONAL INFORMATION

- o Citizenship: Ukrainian
- o Family status: single
- o Children: none
